Hi Naresh,

I passed the CCSP exam on 19th Jan 2021. Thanks for your training and clarification sessions. Which help me to pass the exam.

I was preparing for last six months by self-study but not getting enough confidence to pass the exam Your training and way to clear the doubts is very practical and near to real scenarios.

There is no doubt to pass the exam only reading the CBK and other study material is not enough. It requires guidance and support to clear the doubts.

References I used:
